

Trash Collection

Inskiers Ski Cabin
2016-2017 Ski Season

The City of Truckee collects garbage, trash, and recyclables early (6-AM) Tuesday morning. So, collect and place these items in the bear-proof container next to driveway when you depart the cabin or before bedtime on Monday evening.

Currently, recyclables include newspapers and magazines, bottles and cans, and the like. (See city flyer.) Place these items in the right-side trashcan under the kitchen sink, using a **supplied 13-gal blue liner**. When the trashcan is full, knot the blue liner and put it into the **40-gal blue barrel** in bear-proof container next to driveway, after lining the barrel with a **supplied 40-gal blue liner**. On departure or Monday evening, place blue barrel in bear-proof container next to driveway.

All other items are considered trash/garbage and should be collected in trashcans fitted with **supplied white liners** located in the kitchen, bathroom, and other parts of the cabin. On departure or Monday evening, empty trashcans bag-by-bag into the **40-gal gray barrel** in bear-proof container next to driveway.

Also on Monday evening, break down any cardboard boxes and place between trash and recycling barrels in bear-proof container next to driveway.
